

AIRCRAFT MAINTENANCE MANAGER (80–100%)

Lead aircraft maintenance at the heart of aviation.

Location: Zurich Airport

Starting date: 01.12.2026

Why this job is special

Lead the technical maintenance operation of our **EASA Part-CAO organisation** at Zurich Airport. We maintain aircraft up to **2,730 kg MTOM** and are a **Diamond Aircraft Service Center**. Lead a committed team and help shape our future.

Your responsibilities - leadership, safety and impact

- Lead and coordinate the maintenance team and daily technical operation
- Plan and supervise maintenance on MFGZ-owned and professional customer aircraft across types such as C172, DA40, DA42, BR23, PA28, M22P and SR22, in accordance with our CAE
- Ensure high standards of **quality, safety and regulatory compliance**
- Develop the team and improve processes - your ideas and experience matter

Your profile

- EASA Part-66 B1.2 licence with Group 3 rating for metal and composite aircraft
- 5+ years in aviation, including 2+ years in aircraft maintenance
- Good spoken and written English
- Structured, reliable and safety-focused

An Advantage

- Category B driving licence
- Previous leadership experience

What you can expect from us

- Regular office hours, Monday to Friday, at Zurich Airport
- 5 weeks' holiday and a 13th-month salary
- Free parking directly at Zurich Airport
- A leadership role with real responsibility, short decision-making paths and a supportive team
