

For our team at the EuroAirport Basel-Mulhouse, we are constantly looking for

Licensed Aircraft Technicians (Airbus / Boeing / Bombardier / Gulfstream / Pilatus)

Responsibilities you carry

- Acting as certifying staff in AMAC 145 maintenance organization
- Performance of routine and non-routine task cards
- Performance of related operational and functional tasks
- Troubleshoot, repair, inspect and rectify flight problems
- Liaising with respective internal 145 MRO and PO part 21 shops for all maintenance issue

Expertise you have & skills you bring

- Minimum 3-5 years practical experience of base maintenance
- Holder of EASA Part-66 Cat B1 with relevant type rating(s) depending on the aircraft manufacturer
- Advanced trouble shooting experience
- Awareness of highest standard in terms of quality, reliability and safety
- Fluent in English

Benefits you get

- Working within an exclusive and international environment
- Being part of a young and dynamic company with hands-on mentality
- A multifaceted, challenging and responsible position
- Attractive employment conditions and social benefits
- Reduced meal prices in our canteen as well as parking spaces (or free shuttle bus transports) and other employee discounts

Have we sparked your interest in a new professional challenge? Then we look forward to receiving your [online application](#) for the respective position.

Are you an aviation enthusiast through and through, but not an aircraft mechanic? More exciting open positions can be found on our [website](#).
